PLANT WILD BROTHERS TREES

Nothing will improve your property and surroundings and add
to their value and your pleasure at so small a cost as

Shade Trees, Evergreens and Shrubs

Shade trees should form the foundation, with irregular groups
or masses of shrubs against buildings, fences or property lines,
or as borders along walks or drives. The Evergreens add
variety and beauty both winter and summer.

FRUIT TREES should form a part of the planting. Plant early
during favorable weather and they will be better established
when spring growth begins. Almost every home has plenty of
room to grow their own GRAPE, RASPBERRY, STRAW-
BERRY, and other small fruits, Currants, Gooseberries,
Asparagus, etc. Do not delay until the busy season causes it
to be put off another year.

WE EMPLOY NO AGENTS. Send for our descriptive catalog
and buy direct from the nursery.

ONLY THE BEST

illumination should be used at the
present day; because the best costs no
more than the poorest. It may be
truthfully said that electricity offers
the safest, as well as the cleanest and
most convenient illumination. With it
there is no danger of fire or asphyxia-
tion, nor is there any foul odor or dirt.

Fruit Growers Met in Rogers.

A meeting of a dozen secretaries
and general managers of the vari-
ous berry associations of Washing-
ton and Benton counties was held
in Rogers Friday afternoon to de-
vise a plan for co-operation in mar-
keting the crop this season. There
are three plans open—going it al-
one, shipping through the Farm-
ers Union, or shipping through the
Ozark Fruit Growers Association
and each of them has its advocates.
Rogers, Springdale, Garfield, Gen-
try, Decatur and Siloam Springs
have independent organizations,
while Rogers and Springdale also
have strong Farmers Union asso-
ciations. No definite action was
taken but a committee will be ap-
pointed to make farther plans to
call another meeting when advis-
able.—Rogers Democrat.

Weak Women

To weak and ailing women, there is at least one
way to help. But with that way, two treatments,
must be combined. One is local, one is constitu-
tional, but both are important, both essential.
Dr. Shoop's Night Cure is the Local.
The former—Dr. Shoop's Night Cure—is a topical
mucous membrane suppository remedy, while Dr.
Shoop's Restorative is wholly an internal treat-
ment. The Restorative reaches throughout the
entire system, seeking the repair of all nerve,
all tissue, and all blood ailments.
The "Night Cure," as its name implies, does its
work while you sleep. It soothes sore and inflamed
mucous surfaces, heals local weaknesses and
discharges, while the Restorative, eases nervous
excitement, gives renewed vigor and ambition,
builds up wasted tissues, bringing about renewed
strength, vigor, and energy. Take Dr. Shoop's
Restorative—Tablets or Liquid—a general tonic
to the system. For positive local help, use as well
the system. For positive local help, use as well
